

# Paypod™ Hybrid

---

## PAY STATION

---

## Paypod™ Hybrid

### Description

---

Paypod Pay Station assists retailers with cash management at the point of sale. Stop spending time reconciling cash at the end of the day. By automating cash handling, retailers can save money by reducing costly mistakes.

Paypod Hybrid attaches to standard retail counters without any invasive changes to the counter. The innovative design is secure: It has a lockable enclosure door, a lockable bill recycler cashbox, and a dual-locking feature on the coin recycler. The front and top doors provide easy access to the cash devices for maintenance.

Enable [payment automation](#) in your store now.

# Benefits

---

**Time saving for your store.** Reduce manual cash handling and operate more efficiently

**Stop counterfeiters and lower cash loss.** Increase control with secure enclosure

**Hygienic Hybrid.** Make hygiene happen by letting employees handle the food, not the cash

**Seamless Integration with your existing point-of-sale system** via software or uAPI

**Intuitive user experience.** 7 inch (17 cm) screen offers payment guidance for fast throughput

## Variants

---

### **Paypod Hybrid H22**

Paypod E22 Embedded Enclosure, CLS Coin Recycler, SCR Advance™ Banknote Recycler.

The H22 provides sequential note dispensing and counterfeit rejection in an enclosure that adjusts to the depth of the counter.
